

I've found that the very best solutions arise from a willingness to blend art with science, ideas with data, and instinct with analysis. My desired goals for this internship program would be amidst this;

1. Joining the internship will gauge where I stand. I can showcase my talent and prove my skills here.
2. I would love to seek the guidance of experienced and learned teams that are already onboard. That way, I can become a better professional in the future.
3. Staying up-to-date with the latest tools and programming languages
4. Embrace the element of change in an evolving industry
5. Create the perfect customer experience

Seeking the guidance of experienced and learned teams that are already onboard. The Zuri team is a renowned brand for a tech career <https://zuri.team>. Some other tech links to get more insight on launching a tech career would be great and such are provided below:
